

NO MORE TURNING DOWN RENTALS!

Verifying your renter has liability coverage while pulling a rented trailer can be hassle free!

Simply direct them to www.mbatrailer.com and provide them with your policy number and last 6 digits of the VIN the renter has reserved for rental. Once the renter purchases the insurance, you will be notified via email. No more asking for binders or confirming coverage with their agent.

Why direct your renter to mbatrailer.com?

1. Personal insurance policies often EXCLUDE coverage in a rental situation. Why let your renter take that risk? More and more, personal auto insurance companies are no longer providing liability coverage for rented trailers.

Both you and your renter have peace of mind when they purchase an MBA insurance addendum.

2. Certificates of insurance or insurance ID cards obtained by your renter from their personal insurance does NOT guarantee liability will extend to a rented vehicle.

3. Less work for you – upon purchase by your renter, an email is sent to your inbox verifying purchased coverage.

LESS HASSLE

No need to verify liability coverage! Have the renter purchase instead!

LESS WORK

Confirmation of liability insurance purchase is emailed directly to you!

PEACE OF MIND

No more asking for binders or confirming coverage from their agent!
